The smart way to buy rubber & plastics

## Technical Data

| Property                       | Value                            |
|--------------------------------|----------------------------------|
| Compound                       | Ethylene Propylene Diene Monomer |
| Colour                         | Black                            |
| Hardness (IRHD)                | 73°                              |
| Density (Specific Gravity)     | 1.26                             |
| Tensile Strength               | 9 MPa                            |
| Elongation at Break            | 275 %                            |
| Compression Set (22 h @ 70° C) | 22.5 %                           |
| <b>Air Aged (70 h @ 70° C)</b> |                                  |
| Hardness Change                | +5°                              |
| Tensile Strength Change        | ± 10 %                           |
| Elongation at Break Change     | ± 15 %                           |
